Maintenance Lightweight non woven vinyls offer an easy-clean finish and some resistance to knocks and scrapes. They are best used in 'low-traffic' areas and will retain their original appearance for 3 - 5 years, depending on area of use.

Always carry out a trial in an inconspicuous area first, to ensure cleaning agent is suitable. Clean with a mild non-soapy detergent with soft cloth or sponge. Do not use polishes, abrasive cleaning agents or strong cleaners as they will damage the surface, particularly metallics. Always clean from skirting level upwards. Rinse thoroughly with clean water (avoid over wetting). Individual stains should be removed as quickly as possible.

Health & Safety This product is classified as non-hazardous and therefore does not require any special handling. This product does not require special labelling.

Handling Storage Store at ambient temperature away from heat source. Suitable lifting equipment may be required.

Fire Fighting Any extinguishing media are suitable. Wear self contained breathing apparatus, protective clothing and full face mask. Fumes should be ventilated immediately due to possible liberation of noxious gases.

Ecological This product is not bio-degradable. Dispose of in accordance with Local Authority Regulations or via an authorised contractor.
